

Forklift Safety Belt Policy

Acknowledgement Form

I have been informed by Energy Transport Logistics Management, that I am to wear a safety belt at all times while operating a forklift at any Energy Transport Logistics facility.

This Policy is not an optional practice and it is strictly enforced to protect all of those that operate forklifts on our docks. Random checks will be performed on a daily basis without any notice.

I acknowledge that the violations of this policy could result in me not being allowed to operate a forklift at this facility. I further acknowledge that any future violations of unauthorized use will be grounds for disqualification from Energy Transport Logistics.
